

Nepal, Kathmandu

In July 2019 Jennie had the joy of meeting up with all the children supported by New Dawn in Nepal. A torrential monsoon season began 3 days after her arrival causing landslides and flooding across large areas of the Kathmandu valley. Tragically, many lives were lost. Also, a scary 4.1 earthquake hit Kathmandu city while she was there. In spite of the challenging conditions, she was able to maintain her program.

Isha, a total orphan, taken in by Pastor Krishna when she was 5 years old, is now 22. She has successfully completed her **Hotel Training Diploma** course having concluded her final internship-training in China. She was back in Nepal while Jennie was there and now waits to leave for Qatar to begin a 2 year contract in a new 5 star hotel. She is so happy, and expressed her sincere gratitude for the assistance she has received from New Dawn. Isha aspires to travel to many places through her work, and she also intends to support abandoned children, helping to provide them with a future. It has been very fulfilling to watch this girl grow up, to have been able to assist her through part of her journey, and to witness such positive fruit in her life.

Rupa, from a very impoverished lower-cast family, was taken into Pastor Krishna's home when she was 6 years old. She will soon be 19 and will complete her **Nursing Training** this autumn. She loves her studies and is an

Rupa - 2019

excellent student. She has already worked in several hospitals, and also in a dispensary in a remote area. She shared with

Jennie the thrilling experience of delivering a baby alone, while on night duty in the remote dispensary! She will complete her final exams before the end of this year. Her desire is to continue her studies to obtain a further level of specialized training. However, she can already apply for various nursing posts as soon as she gets this diploma.

The Little Feet Children were thoroughly feted during Jennie's stay! Her visit is always a little like Christmas-time for them! The children are stable and happy and all are doing well at school. They are growing up so quickly! Jennie organised a

special cream cake tea-time at the home. Even the little dog had a piece of cake! A bag full of small gifts for each child was specially brought from France, and Jennie also took them out to have a festive meal in a restaurant one evening.

Ayshuma desires to become a children's rights lawyer, and Priskila wants to become a nurse. We pray that they are able to fulfil their dreams

Jennie with Isha 2019 - July

Molissa, Sunita, Solina, Ayshuma and Priskila July 2019

Thank you for all that you do, with warmest wishes and
